WH Energy Savings Rebate Program

2019 Rebate Application

Wright-Hennepin
Cooperative Electric Association
A Touchstone Energy® Cooperative

Electric Vehicle must be on Storage Charge Energy Saving Program:
240-Volt Level 2 charging station with minimum of 4.5 kW charger rating.

This rebate is available only for the purchase/installation of a new 240-volt Level 2 charging station, which must be on the EV Storage Charge Energy Saving Program. A car that has a minimum of 4.5 kW charger rating is required to qualify for the rebate and it must be installed where electricity is supplied by Wright-Hennepin Cooperative Electric Association (WH). Rebate submittal must follow the terms as outlined on this form.

Terms of the WH Energy Savings Rebate Program

- Rebate amount is $200.00 toward the purchase/installation of the 240-volt Level 2 charging station.
- Electric vehicle is required with a minimum of 4.5 kW charge rating.
- Rebates will be issued as a credit on your WH electric bill.
- Electric vehicle charging station must be installed within WH service territory.
- Electric vehicle charging station must be on the Electric Vehicle Storage Charge Energy Saving Program (EVSC).
- The charging time is eight hours per day from 11 p.m. - 7 a.m. Charging is not available all other hours.
- Energy will be sold for the EVSC at $.06/kWh. The energy sold for this program will not be subject to the Power Cost Adjustment (PCA).
- Member will pay the cost and arrange installation for all special equipment and/or additional switching mechanism necessary to meter the charging station.
- Energy-Savings Program meter and receiver equipment will need to be located outside the home.
- **Please allow six to eight weeks for rebate processing after ESP installation.**
- **One rebate per household.**
- **The EVSC will be required to be in place for a minimum of five years.**
- **By applying for the rebate you are agreeing to the terms of the program.**
- **Must be purchased between January 1 - December 31, 2019. Submit the completed rebate form within 90 days of the completed wiring inspection for the Electric Vehicle Storage Charge Energy Saving Program by a Wright-Hennepin technician:**
