News Release

OPEN HOUSE ON GEOTHERMAL HEATING

Rockford, MN (May 5, 2015) — Looking for an environmentally friendly and cost-effective way to heat and cool your home? Come to Wright-Hennepin Cooperative Electric Association's (WH) headquarters on Tuesday, May 19 for an open house on ground source heat pumps to learn how geothermal heating can both heat and cool your home.

The event runs from 4:30 p.m. to 7 p.m. and will offer refreshments, as well as a presentation by a Minnesota Geothermal Heat Pump Association (MGHPA) representative at 6 p.m. No RSVP is required, just show up and learn about the benefits of ground source heat pumps, and pose any questions you may have to our staff and the MGHPA representative.

WH is a member-owned non-profit electric utility that provides electric power to Wright County and the western part of Hennepin County. The cooperative has been a corporate citizen in this area since 1937 and currently serves more than 46,000 electric accounts. The utility started its security division in 1989 and provides local home security solutions as well as monitors alarm systems for almost 60,000 customers in 32 states and three Canadian provinces.
