

WH Energy-Saving Quick Cash Water Heating Program

Wright-Hennepin's (WH) Quick Cash Water Heating (QCWH) Program can save you \$120 per year for as long as you are in the program.

Receive a \$10 credit per month with a minimum of 300 kWh in your general service usage.

How it Works

With WH's Quick Cash Water Heating Program, water is heated during off-peak hours when electrical demand is at a minimum.

A mixing valve is installed on the discharge hot water pipe of the water heater, and is designed to mix cold and hot water in order to deliver the desired temperature at the faucet. WH requires installing, setting and maintaining the mixing valve to the manufacturer's specifications to increase the yield from the tank.

Water heaters are interrupted for 16 hours daily. Recharge is limited to eight hours daily, and may be continuous for eight off-peak hours or in increments totaling eight hours daily.

- From October 1 – April 30, your water heater will charge between 10 p.m. – 6 a.m., Monday – Friday.
- From May 1 – September 30, it will charge between 11 p.m. – 7 a.m., Monday – Friday.
- Weekends & holidays: No control except for peak conditions, high energy prices or system emergencies.

Equipment requirements

- Install a 100-gallon electric water heater with a mixing valve.*
- The Energy-Saving Program (ESP) receiver equipment will need to be located outside the home.
- Hot Water Recirculation units (gravity or pumped) are not recommended to be used with the water heating programs.

**100 gallon water heater with a mixing valve is recommended for a family of one to five persons without a whirlpool bath. Recommendations are based on average usage. Your family's usage patterns should be considered before choosing the water heater size.*

HOW TO SIGN UP

1. Contact WH to schedule a date and time to pick up or deliver water heater.
2. Homeowner or licensed contractor is responsible for installing electric water heater and mixing valve. Wiring diagrams are available.
3. Have a state electrical inspection completed within 30 days of the installation.
4. Contact WH at (763) 477-3000 for installation of ESP equipment.

2020 REBATES AVAILABLE

1. WH Energy-Saving Program rebate: up to \$950

2. Conservation Improvement Program rebate: \$300

Rebate available on the purchase price of a new 100-gallon tank and mixing valve.

Enrollment in the Quick Cash Water Heating Program is required to receive rebate.

Rebates are available on new installations only. Rebates will be given as a credit on your bill.

Rebate forms may be downloaded at whe.org.

Westinghouse carries a lifetime warranty. Register your water heater at <https://bit.ly/31WNCWa>.

Manufacture installation requirements must be followed to ensure you do not void warranty.

Learn more by talking to a WH representative at (763) 477-3000 or visit WH's website at whe.org.

Rebates are paid on a first-come, first-served basis. Terms and conditions are subject to change.

Please allow six to eight weeks for rebate processing after ESP installation.
