

WH Energy-Saving Electric Vehicle Charging Program

Wright-Hennepin's electric vehicle (EV) Time-of-Use Energy-Saving Program lets you charge your EV at a time convenient for you.

How it works

- Charging is available 24/7.
- Energy rate varies based on time of day EV is being charged.
 - 5 a.m. to 5 p.m. – \$0.13213 per kWh
 - 5 p.m. to 10 p.m. – \$0.31171 per kWh
 - 10 p.m. to 5 a.m. – \$0.06434 per kWh
- Energy rate is not subject to Power Cost Adjustment (PCA).
- May require a separate meter socket to be installed on the outside of home.
- The EV must have a minimum of 4.5kW charger rating to qualify.
- Requires the use of a hardwired, 240-volt, wall-mounted Level 2 charging station.

2026 REBATE INFORMATION

Energy-Saving Program (ESP) rebate: up to \$500

Enrollment in the Time-of-Use (TOU) EV charging program is required to receive a rebate.

Rebates are available on new charging station installations only. Rebates will be given as a credit on your account.

Charging stations for battery electric vehicles (BEVs) qualify for a rebate up to \$500; **NEW for 2026: charging stations for plug-in hybrid vehicles (PHEVs) qualify for a rebate up to \$150.**

Rebate forms may be downloaded at whe.org.

Rebates are paid on a first-come, first-served basis. Terms and conditions are subject to change.

Please allow six to eight weeks for rebate processing after ESP installation and inspection.

Learn more by talking to a WH representative at (763) 477-3000 or visit WH's website at whe.org.

Program information applicable through 12/31/2026

Programs, rates, and rebate amounts are not guaranteed and may be adjusted in the future.

See how the Time-of-Use charging program helps you save

Try our calculator to see how much you'll save when you switch from a gas or diesel vehicle to an EV - and find out how long it'll take to charge it!

You can also learn more about reducing your environmental impact, view available EV models, and learn more about charging station options.

How to enroll

1. Contact Wright-Hennepin (WH) to discuss the program details.
2. Schedule a time to pick up equipment.
3. Contact an electrician to receive a quote for the installation of your Level 2 charging station and metering equipment.
4. Install charging station & metering equipment.
5. Complete state electrical inspection within 30 days of installation.
6. Notify WH that installation is complete. WH will do an ESP inspection. Rates and rebates will not be applied until the final inspection is complete.
7. Complete required rebate paperwork.
