

WH Energy Savings Electric Vehicle Charging Options

Wright-Hennepin's Electric Vehicle Charging programs give you options to save energy and reduce your electric bill by charging during Off-Peak hours.

WH has two Electric Vehicle Charging options:

Option 1: Electric Vehicle Storage Charge Program

- Energy rate during that time is \$.054 per kWh.
- Energy rate is not subject to power cost adjustment (PCA).
- Charging time is eight hours per day, generally from 11 p.m. - 7 a.m.
- Requires a separate meter socket and receiver to be installed on the outside of home.
- Rebate available on cars with minimum of 4.5 kW charger rating.

Option 2: Electric Vehicle Time-of-Use Program

- Energy rate varies during the day.
 - From 12 p.m. - 10 p.m. weekdays - \$.1945 per kWh.
 - All other hours and holidays - \$.0577 per kWh.
- Energy rate will be subject to power cost adjustment (PCA).
- Meter is on 24/7.
- Requires a separate meter socket to be installed on the outside of home.
- No rebate available.

2018 REBATE AVAILABLE

WH Energy Savings Program rebate: \$200

Conservation Improvement Program (CIP) rebate: \$500

Rebates available toward the purchase/installation of the 240-volt Level 2 charging station with a car that has a minimum of 4.5 kW charger rating.

Rebates only available on Option 1: Electric Vehicle Storage Charge.

Enrollment in the Electric Vehicle Storage Charge rate is required to receive rebate.

Rebates are available on new installations only. Rebates will be given as a credit on your bill.

Rebate forms may be downloaded at www.whe.org

Learn more by talking to a WH representative at (763) 477-3000 or visit WH's website at www.whe.org

Rebates are paid on a first-come, first-served basis. Terms and conditions are subject to change.

Program information applicable through 12/31/18
