For use as part of an electric thermal storage or demand response program

These units feature a disconnect and they ship with the lower heating element disabled as required by the law regulating grid-enabled water heaters. The disconnect is unlocked with a key (included with the water heater).

Premium Tank Construction for Long Life:
- 316L stainless steel tank is lightweight and resists corrosion - No anode rods needed
- Titanium elements for best corrosion resistance
- Brass Inlet and Outlet Nipples with built-in heat traps and heavy duty foam insulation to minimize heat loss

Simple and Fast Lockout Solution:
- Leaves factory with lower element assembly locked
- Can be unlocked in less than 30 seconds with included key
- Installs like a traditional electric water heater
- Can be configured for different operating voltages/inputs
- No new/unique software or controls are required
- Complies with Law 114-11 - The Energy Efficiency Improvement Act of 2015

Standard Features:
- Stainless Steel Tank with Heavy Duty Insulation
- Electrical Connection Box
- Industry Best Limited LIFETIME Warranty with Registration
  Ten (10) year warranty if not registered online

In the Box:
- T&P Relief Valve
- Installation Manual
- Brass Full Port Drain Valve
- Key

### The Advantages

**Stainless Steel VS Glass-Lined**

- **HTP’s**
  - Stainless Steel Tank
  - Lightweight
  - Minimizes Scale Build Up
  - Prolongs Tank Life
  - No Need for Anode Rods
  - Lightweight Construction

- **Top Competitor’s**
  - Glass-Lined Tank
  - Very Heavy
