Evaporator coil model number: _____ Evaporator coil serial number: _____

Furnace model number (if new): _____ Furnace serial number: _____

AHRI Cert#: _____ Ducted SEER2 rating: _____

☐ ECM motor replacement - **\$50 per unit, maximum of two.**

Contractor information

Name: _____

Address: _____

City: _____ State: _____ ZIP: _____

HVAC Contractor ID#: _____

Phone: _____ Email: _____

Terms of WH rebate program

- The rebate amount for an air source heat pump (ASHP) is \$150 per ton, up to a maximum of \$675 (4.5 tons).
- Member agrees to allow Wright-Hennepin (WH) to manage the ASHP on days of high electrical demand, high wholesale energy prices and system emergencies.
 - Summer control: Member agrees to allow WH to manage your ASHP for up to 200 hours per cooling season. WH will cycle your ASHP on and off during this time.
 - Winter control: Member agrees to allow WH to manage your ASHP for up to 12 hours per control period, not to exceed 400 hours per heating season. During this time, the backup heating source is used.
- Rebates will be issued as credit on your WH electric bill.
- ASHP unit must be installed within WH's service territory.

WH Energy-Saving Rebate Program

Terms, continued

- ASHP unit will be on the Quick Cash ASHP Energy-Saving Program (ESP).
- ASHP unit will be metered at the general service rate.
- Members with an ASHP receive a credit of \$5 applied to their electric account for the months June through November. The member must have a minimum general service usage of 200 kWh per month to qualify for the credit.
- If there is more than one electric panel in your home, please verify the ASHP breaker is in the general service panel.
- WH may provide installation of the load control device (receiver). WH will only pay for the standard installation of the load control device for the Quick Cash ASHP ESP.
- Member is responsible for ASHP unit installation cost and maintenance of the ASHP unit.
- Members must verify with their contractor that the newly installed ASHP system is compatible with the WH Energy-Saving demand management system equipment and control strategy and has utility curtailment capability.
- The ESP receiver equipment will need to be located outside the home.
- Please allow six to eight weeks for rebate processing after ESP installation.
- The ESP for the ASHP unit will be required to be in place for a minimum of five years. If removed, the rebate will be prorated and billed to your electric account.
- By applying for the rebate, you agree to the terms of the program.
- This rebate does not apply to ductless systems.
- Form must be filled out completely. **The form must be signed by the WH member applying for the rebate.** Incomplete forms will be returned.
- Must be purchased between January 1 - December 31, 2025. Submit the completed rebate form and a copy of the original sales receipt within 90 days of purchase to:
Wright-Hennepin Cooperative Electric Association
Attn: Administration
PO Box 330
Rockford, MN 55373-0330

Rebates are available only for the purchase of a new ASHP unit installed on or after January 1, 2025. Rebate dollars are limited and will be paid on a first-come, first-served basis. The ASHP must be installed where electricity is supplied by WH. Rebate submittal must follow the guidelines as outlined by WH. WH is not responsible for inaccurate information supplied by vendors. The rate/credit and rebate offered by this program are subject to change without notice. By participating in this program, participants acknowledge that the pricing and rebate amounts are not fixed and may be adjusted in the future. Participants accept any such changes to the program. Call WH at (763) 477-3000 to verify rebate program status.

By signing this application, I certify the program for which I am claiming a rebate is a qualifying heat pump, and that it has been installed at the address listed above, which represents a valid WH account.
